## VETERAN APPRECIATION SPOTLIGHT

---

**Kash Wilson** joined the United States Army in January 2013. Wilson was motivated to serve his nation as his father and brothers had done. From 2013-2019 Wilson served in the US Army Military Police Corps. Wilson received a company level commendation during a training exercise in Hawaii, which was his most honored achievement. Wilson explains that, the experiences lessons during his service taught him self-discipline and focus. Wilson says; Guardian Protection Force is a premier security service that and I appreciate working with other like minded professionals providing the best service to the customer and the satisfaction of providing that protection so many look for.

## WILSON'S FUNNY STORY

---

"Being ordered to pick the grass around the barracks in Hawaii using my fingers instead of a lawnmower was funny, for some!" -Kash Wilson

# INDUSTRY NEWS

## NEW LAWS IMPACTING "PROPRIETARY" (IN- HOUSE) SECURITY FORCES

While most of us know that licensed private security guard companies provide guards to patrol businesses, buildings and residences, there is another side to security that has been largely unregulated.

"Proprietary Security" is that which is provided by a business or school where the uniformed guards are directly employed by the business or school and not by a licensed security company. (Think shopping malls, theme parks, certain department stores, many jewelry stores, bar bouncers, and most community college campus security forces. These are "Proprietary Security.")

AB 2515 has made some massive changes to the security industry, many of which directly impact this previous minimally regulated side of the security.

## OVER ONE MILLION SECURITY GUARDS IN THE U.S.

This statistic is a testament to the importance of the private security industry in the United States. It highlights the sheer number of people employed in the sector, demonstrating the significant role it plays in keeping people and property safe. It also serves as a reminder of the need for continued investment in the industry to ensure that security guards are adequately trained and equipped to do their jobs.
